Introduction

Most websites you visit will use cookies in order to improve your user experience by enabling that website to 'remember' you.

If a website does not use cookies, it will think you are a new visitor every time you move to a new page on the site.

1. What is a cookie?

A cookie is a small, often encrypted text file that is stored on your computer or mobile device by a website's server and only that server will be able to retrieve or read the contents of that cookie. Each cookie is unique to your web browser. It will contain some anonymous information such as a unique identifier and the site name and some digits and numbers. It is used to help users navigate websites efficiently and perform certain functions.

2. What types of cookies are used on our Sites?

- **Compliance cookies**

This cookie allows us to know whether or not you have given consent to the use of cookies and therefore do not need to be presented with this consent request message again

- **Analytics cookies**

These cookies allow us to count page visits and traffic sources so we can measure and improve the performance of our site, using a service provided by Google Analytics.

- **Session cookies**

These cookies store temporary information to enable site functionality. They are automatically deleted when you close your browser.

- **Functional cookies**

These are cookies used for core site functionality.

Other Websites

Visitors are provided with the option to navigate to a variety of external websites, plug-ins and applications operated by third parties where the Site Operators, or the user may have a presence, or the user may wish to visit. When the visitor selects the option to view the content from these websites, they are taken away from the relevant Site and to the other site, where a variety of cookies may be used throughout the visit. We are not responsible for any cookies used once the visitor has left our Sites. We encourage you to consult the terms and conditions and privacy policy of the relevant third party website to find out how that website collects and uses your information and to establish whether and for what purpose they use cookies.

31. How to configure your cookie preferences

Every browser program (such as Internet Explorer, Firefox, Safari, Google Chrome etc) provides the ability for the user to configure their preferences. Refer to the help section of your particular browser to find out how to configure your own preference.

32. Frequently asked questions

- **Do I need to accept cookies?**

The current changes to our Sites simply explain what cookies are, how we use them and what benefits they bring. You are not currently required to do anything, other than read our Cookie Policy to understand these changes.

- **Do cookies mean I could get cold calls or emails?**

We never use the personal information gathered through cookies to contact you via post, email or phone.

- **Can cookies allow others access to my computer's hard drive?**

The cookies we use cannot look into your computer, smart phone or web-enabled device and obtain information about you or your family or read any material kept on your hard drive.

- **If I use a public computer, will someone be able to get my details from the cookies?**

Our cookies cannot be used by anyone else who has access to the computer to find out anything about you, other than the fact that someone using the computer may have visited a certain website.

- **What happens if I refuse, block or delete cookies?**

In order to use some parts of our Sites you may need to accept cookies. If you choose to withhold consent to our use of cookies, or you subsequently block or delete cookies, some aspects of our Sites may not work properly, and you may not be able to fully use or access all or part of our Sites.
